The SILEA offers many possible options for integrating electrical and medical fluid equipment.

Supplies

It is designed to be fed:

- From behind (A)
- From the ceiling, via a distribution duct (B)
- From the side (C)

Integration of electrical equipment

The SILEA is cut by water jet, providing a precise, tailor-made finish so that sockets of any shape can be built into it. Electrical devices are flush-mounted, for easy cleaning and disinfection of the product.

Installation

The SILEA is quick and easy to install thanks to its screw-mounting system via the back of the unit.

Medical gas casing

For AFNOR gas outlets, ABS/PC panels are available with cover. For any other standard there are no gas casing.
