TLV Healthcare

Custom design

The MADEIRA is fully customized and can be configured by integrating: door, drawer, and technical equipment (x-ray film viewer, multimedia screen, haemodialysis water purifier, wardrobe, bedside table, etc.).

Design and ergonomics

Available with a wide choice of materials and colours, to adapt the panels to your needs. The smooth surfaces of the MADEIRA make it easy to clean and disinfect.

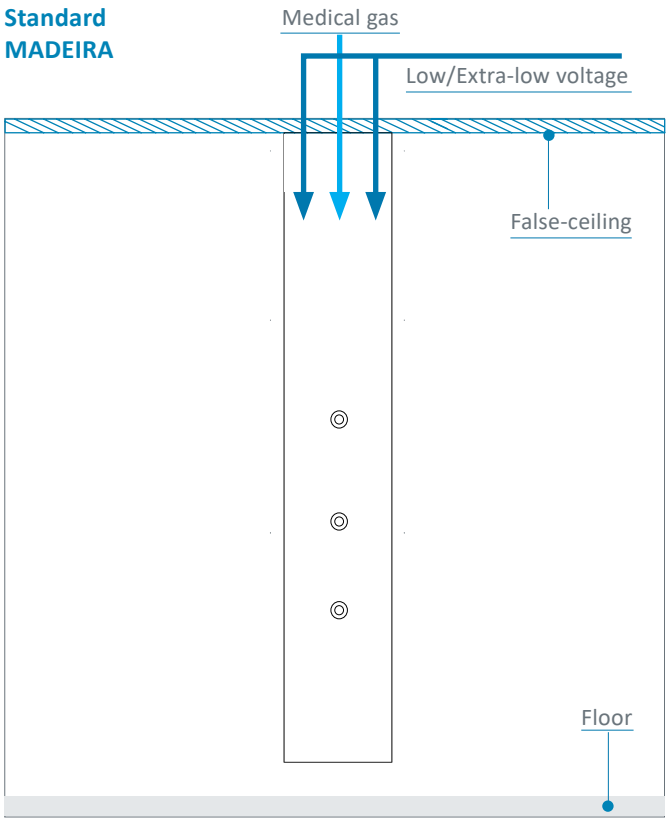
For the different colors and possible customizations, consult our architectural colour chart.

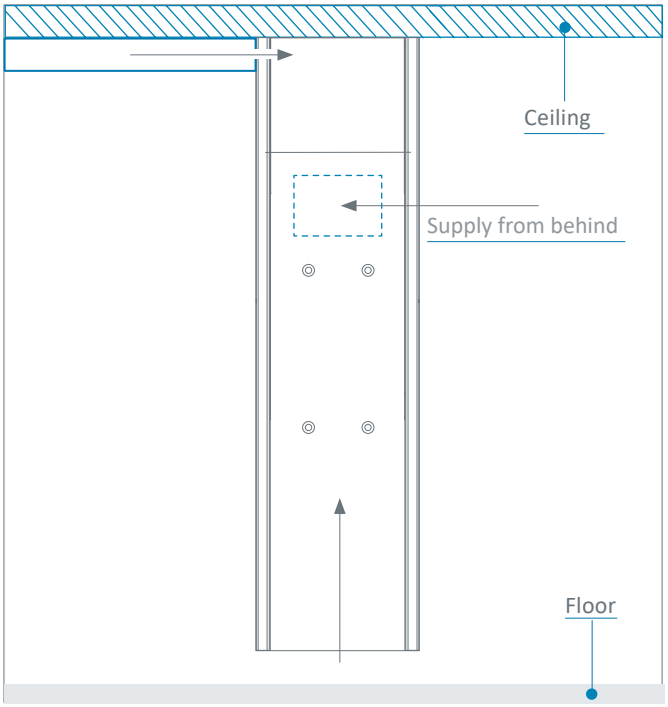
This concept offers a complete medical device that includes all the essential functionality for patients and care teams.

Power supply

Standard MADEIRA



Custom made MADEIRA



Electrical equipment integration

The waterjet cutting of the MADEIRA's cover enables exact and customized cutting. It can integrate all forms of outlets. Electrical devices are flush-mounted, for easy cleaning and disinfection of the product.

Medical gas integration

ABS / PC medical gas casings are available with a flap for AFNOR gas outlets.

Lighting

Combined with a wall-mounted lighting unit from the TLV range (LINA, LYSA, LUMIA or GOODLIGHT), the concept MADEIRA provides a comfortable, efficient lighting solution to contribute to the well-being of patients and healthcare professionals.

It can optionally be equipped with the following:

A FLEX-E LIGHT reading spotlamp on flexible. For more information, see the dedicated brochure page 126.

1 x 3,1 W

LED night light built into the bottom fitting.

1 x 1,2 W

Optionnal Equipment

The MADEIRA concept is also available in **custom made configuration**. It can incorporate extra low/low voltage devices and medical gas on the front panel or on the sides. If necessary, the side profiles can be equipped with a rail (on the right and/or left-hand side), where biomedical accessories can be Fixedd.

It can include your choice of technical devices, for example :

Haemodialysis water purifier

Example of MADEIRA made-to-measure configurations

With a bedside table and cabinet in the lower part.

With a cupboard at the top and a wardrobe equipped with safe.

With a haemodialysis water purifier.

With a wall lighting unit

With upper recesses and a bedside table in the lower part, where a refrigerator can be integrated.

With wood panels covering the electrical distribution profiles.

With steel front panel.

With flush mounted wood panels between the electrical distribution profiles.
